

Cyber Outstanding Security Performance **Awards**

Sponsorship
Brochure 2021

Global awards for cyber security

The Cyber OSPAs, based on the international Outstanding Security Performance Awards scheme, recognise and reward companies, teams, individuals, products and initiatives across the cyber security sector. The Cyber OSPAs are designed to be both independent and inclusive, providing an opportunity for outstanding performers, whether buyers or suppliers, to be recognised and their success to be celebrated.

What makes the Cyber OSPAs unique?

- The principles of the Cyber OSPAs are that they are **independent, credible, respectable** and **transparent**
- The Cyber OSPAs bring together all the leading cyber security associations and groups around the world to acknowledge and celebrate the many success stories that often operate under the radar
- Judges are nominated by the supporting associations and they all agree to sign up to an ethics policy
- One of the standout features of the Cyber OSPAs is that the categories and criteria for the awards have been created following an extensive research project

The 2021 Awards Event

The original OSPAs (for the physical and corporate security sector) have been running for 7 years. And this year, the first ever Cyber OSPAs will take place in December 2021; providing an opportunity for the global cyber security sector to be acknowledged and rewarded for the amazing contribution that companies, innovation and people are making to the cyber world.

Due to the uncertainty of the Coronavirus situation, this year, the Cyber OSPAs will take place as an online virtual event.

Going 'virtual' means that many more people can join in the celebrations from around the world when we announce the winners of the awards live.

Sponsorship and promotional opportunities

Sponsors will be profiled extensively and given the opportunity to provide a short video promoting their company and aligning their brand with excellence and best practice.
